Following my biggest passion brought me to this point; fulfilling my ambition of creative expression as a member to the art department. Creating story worlds, bringing ideas and vision into physical being. Making use of my versatile skill set. With experience gathered as crew, stage hand, artist, set designer, set builder, set dresser, prop maker and production designer for short films - I am keen to step onto bigger filmmaking productions, in smaller roles; as set dec/assistant, art direct standby, art department assistant or wherever you see fit.
